The screenshot displays the DeviceAll application interface, which is designed to manage files on a virtual device. The top navigation bar includes icons for Home, Libraries, Movies, TV Shows, Videos, Pictures, Music, Games, and Game Emulators. The main interface is divided into three sections: File Manager, Categories, and Other. The File Manager section contains icons for Rename, Delete, and Scan and Import. The Categories section has icons for Add to Category and Show Category. The Other section features a Walk-throughs icon. Below these sections is a table listing files. The table has columns for Name, Duration, Format, and File Size. The first 20 rows of the table show files named "Bob Seger - Old Time Rock n Roll" with a duration of 3:20, MP3 Audio File format, and 4.58 MB file size. To the right of the table is a music player interface. It features a large gray square with a white musical note icon. Below the icon are playback controls: a play button, a previous button, a next button, a stop button, and a volume icon. The music player also displays the song name "Song Name" and the standard details: Duration (3:20), Format (MP3 Audio File), File Size (4.58 MB), Accessed (9/7/2021), and Created (7/27/2020). The advance details section shows the Sample Rate (44.1 kHz) and Audio Channels (2 Channels).
